

Commissioners,

My name is Tim Gorman. I am an Extra licensee with callsign AB0WR.

Petition RM-10783 makes no mention of how the Commission should meet its requirements under Title 47, Part 97, Section 97.1(c) to provide encouragement and improvement to the amateur service through rules and regulations that provide for advancing skills in the communication phase of the art. Element 1 is the only part of the license testing structure that tests for advancing skills in the communication phase of the art.

I respectfully submit that this petition not be considered because it does not provide an alternative for the Commission to consider concerning Title 47, Part 97, Section 97.1(c).

Respectfully yours,

Tim Gorman AB0WR
